***Examiner's Statement Of Reason For Allowance***

2. The following is an examiner's statement of reasons for allowance:

Claims 7-12 are allowed.

Regarding claim 7, the prior art of record does not teach all the combined elements and/or components for a printing system, including a control means for making the carriage and the nozzle head scan only within the blocks decomposed and print the print data within the blocks extracted.

Regarding claim 12, the prior art of record does not teach all the combined steps for a printing method using a printer, including the steps of a step for making the carriage and the nozzle head scan only within the blocks decomposed and print the print data within the blocks extracted.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of record does not teach all the combined elements, components and steps as discussed above in the "examiner's statement of reasons for allowance". In order to expedite prosecution of the case, the examiner's amendment was necessary in order to overcome the prior art.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
